

Downtown Parking Solutions Workshop

Is parking a “problem” in your community?

If so, you should consider attending this one-day workshop about the challenges facing small urban centers meeting the perceived and real parking needs of their communities.

Participants will better understand parking design for small towns, managing parking in downtowns and have ideas of how they can address the parking needs in their own communities. Surrounded by seas of free parking in suburban communities our small towns of Western Pennsylvania face special challenges meeting the parking expectations and desires of clients, customers, visitors and employees.

WHEN: Wednesday April 28, 2010, 9:30 am – 3:00 pm

WHERE: Greensburg City Hall

COST: \$10.00 (lunch on your own)

AGENDA INCLUDES:

- Downtown Parking Management/Trends in Technology
- Parking Planning & Design/Downtown Re-development
- Lunch (Walking Tour of Greensburg)
- Sustainability/Transit Oriented Development
- Work Session

Guest speakers: Todd Helmer, P.E. and Jim Zullo, CAPP, of Tim Haahs and Associates, Inc.

Who Should Attend: Local elected officials, Main Street boards and committees, small towns (with or without meters), architects, engineers, municipal managers, planners, planning commissioners, downtown merchants, parking authorities and others who are interested in improving the vibrancy of their community.
